HOW TO INTERPRET THIS CATALOGUE

BRANGUS

MINIMUM SCROTUM SIZE STANDARD:

(BULLS MUST BE A MINIMUM AGE OF 14 MONTHS)

Ages	Testis sizes
14 months	30 cm
18 months	32 cm
24 months	34 cm
30 months	36 cm
36 months	38 cm

Genetic tests are done to inform buyers of any genetic disorder.

Free: Does not carry a gene

Carrier: Do carry a gene

F94L: Limousine Myostatin Gene

NT821: Belgian Blue Myostatin Gene

Q204X: Charolais Myostatin Gene

Date of birth
Age (months)

AFC: Age first calf <39 months

NO Calves: Number of calves that was born

ICP: Inter calving period <540 days

DLC: Days last calved <705 days

Verified to sire / parents

Colour: Red, Black,
Brindle or two colours

A large, muscular brown bull stands prominently in the center of the frame, facing left. It is surrounded by tall, dry, yellowish grass. In the background, other cattle are visible, including a black cow on the left and another brown cow on the right. The background also features a line of trees and a clear blue sky. A red banner with the text "LOT 1" is positioned in the top left corner.

Raised on Gallsick and Redwater veld. Born from a beautiful cow who has raised a calf every year.																	

A large, muscular brown bull stands in a field of tall, dry grass. The bull is facing left, and its body is covered in a smooth, reddish-brown coat. A yellow tag is visible in its ear. The background shows a clear blue sky and a distant horizon. In the top left corner, there is a red banner with the text "LOT 5" in white. The image is framed by a white border.

Run on virulent Redwater and Gallsickness veld.																			

A black bull with a prominent hump and large ears stands in a field of tall, dry grass. The bull has a yellow tag in its left ear and a red tag in its right ear. In the background, there are trees with some autumn-colored leaves under a clear blue sky. A red banner with the text "LOT 13" is in the top left corner.

Running in Redwater and Gallsickness area.																			

A wide, horizontal photograph of a grassy field, possibly a golf course, with a red banner at the bottom. The grass is a mix of green and brown, suggesting it might be dry or a specific type of grass. The red banner is a solid, vibrant red color and runs across the entire width of the image.

A black bull stands in a field, facing left. The bull has a red tag in its ear. In the background, there are trees and a white structure. A red banner in the top left corner reads "LOT 21".

Magnificent young bull who is well balanced, has good length, a deep girth and stands over ground on correct legs and hooves. He is from the mother BBB 19-0131 (out of RCM1642 by A1321) who was used in an embryo transfer program at Capital Stud. His sire, MV 17-900, has sired numerous exceptional bulls. SH 21-195 he will undoubtedly be an asset for any stud, and he will do well on heifers.

An all rounder of a bull: thick, long, well muscled and has a presence about him. He is easy fleshing. He was used in the stud. He was raised under virulent Redwater and Gallsickness bush veld. All the relevant vaccines have been given. Birth mass of 38kgs.																			

A black and white photograph of a large, muscular black bull standing in a grassy field. The bull is facing left, with its head turned slightly towards the camera. It has a prominent hump and thick skin. The background shows a line of trees with autumn foliage under a clear blue sky. A red banner in the top left corner reads "LOT 33".

BRANGUS

AUCTION RULES 2025

GROUP AUCTIONS | CLUB AUCTIONS | PRODUCTION SALES | DISPERSAL SALES

1. BULLS

- 1.1. DNA tests; Sire verification, Myostatin (F94L, NT821 and Q204X), and Pompes must be done on all bulls presented at the auctions, including commercial bulls.

*Bulls with outstanding DNA results by the given deadline will not be on offer at the auction, not even as commercial bulls.

1.2. COMMERCIAL BULLS:

- (i) All 2025 auctions held under the Auspices of Brangus SA must consist of at least 90% registered bulls of the total offering, with only 10% allowed to be commercial bulls.

If the rule is not adhered to, the auction will not be held under the Auspices of Brangus SA. No catalogue will be compiled, no marketing will be done by Brangus SA, and no pre-screening for auctions will be conducted.

The rule will come into effect as follows;

90% / 10% rule comes into effect from January 1, 2025.

- (ii) Commercial bulls may be placed anywhere in the catalogue.
- (iii) Commercial bulls refer to bulls whose Sires cannot be confirmed (they however must have a sire registered at birth) and bulls whose mother's reproductive data do not meet breed standards.
- (iv) Commercial bulls must pass inspection for the auction.
- (v) A commission of 1% is payable to the Society on commercial bulls.

1.3. Gray Brangus bulls:

If you want to register a Gray Brangus (bulls as well as female animals), it must be DNA tested **(by means of a 150K SNP test)** for the silver Charolais gene.

Only the Murray Gray or Gray Brahman gene is permissible.

- 1.4. The dam (born in 2004 and later) of a bull must maintain an inter-calf period (ICP) of 540 days or less.
- 1.5. The dam (born before 2018) of a bull's AFC must be 41 months or less, and (born 2018 and later) AFC must be 39 months or less.
- 1.6. The dam's DLC must be 705 days or lower.
- 1.7. It is compulsory to have the scrotal circumferences of the bulls on the catalogue.
- 1.8. The heads of all bulls at society auctions must be shaved so that bulls carrying "scurs" can be identified.
- 1.9. NO BULL that has failed any inspection may be on offer at an auction.
- 1.10. ALL BULLS must have a herd identification letter, year number, and follow number from the respective herd. This must be done through a brand mark as determined by the constitution.

1.11. Scrotal circumference requirements;

Minimum Scrotum Size Standard: (Bulls must be a minimum age of 14 months)					
Age	14 months	18 months	24 months	30 months	36 months
Testes Sizes	30cm	32cm	34cm	36cm	38cm

2. FEMALE ANIMALS

- 2.1. Heifers older than 30 months must be accompanied by a pregnancy certificate proving that she will calve at or before 39 months.
- 2.2. All first-calf heifers and cows must be accompanied by pregnancy certificates proving that the animals will calve again within 540 days (18 months) from the last calving. This excludes cows sold with a calf (younger than 7 months) (based on data in the Breedplan system);
- 2.3. All cows (born in 2004 and later) must be accompanied by pregnancy certificates proving that the animals will calve again within 420 (14 months) days from the last calving. This excludes cows sold with a calf (younger than 7 months) (based on data in the Breedplan system);
- 2.4. The quality of female animals offered must be an asset to any herd and must be in good auction condition.
- 2.5. Cows presented at the auction must either be sold with a calf or confirmed pregnant.
- 2.6. All calf registrations will be provided to the office with the following information:
 - Tattoo / ID
 - Date of birth
 - Sex
 - Colour
 - Polled/Horned/scurred
 - Dam ID
 - Sire ID / Multisire group

**(When members send a multisire group to the office, the office must determine that the bulls registered within the multisire group are registered and approved SP bulls and/or C bulls, only then can the animals be registered as appendix B animals. If there is a bull in the multisire group that is commercial, the offspring will be registered as commercial.)

- 2.7. Female animals may be presented as commercial at Brangus auctions. It is the breeder's responsibility to compile the catalogue for commercial female animals, and it must be separate from the Brangus catalogue and look completely different from the Brangus catalogue "template".

- 2.8. Female animals that have failed inspection may still be presented as commercial provided that it states “not registrable for Brangus SA” at the top.
- 2.9. ALL FEMALE ANIMALS must have a herd identification letter, year number, and follow number from the respective herd. This must be done through a brand mark as determined by the constitution.

3. GENERAL

- 3.1. No animals will be included in the catalogue if accounts are more than 30 days overdue.
** If the breeder/seller’s account is overdue, they may sign an undertaking (available from the office) authorizing the Auctioneer to pay the outstanding amount to the office from their auction proceeds.
- 3.2. No changes to animals or animal information on auction catalogues will be made after the cutoff dates.
- 3.3. No replacement bulls or female animals will be accepted within 14 days before Society auctions.
- 3.4. No loose pages will be inserted into Society auction catalogues.
- 3.5. Auctioneers will use the auction catalogue as provided by the Society, including BREEDPLAN figures. No modifications may be made unless pre-approved by the Society.
- 3.6. The auction animals must pass through a ring during the auction’s pre-screening.
- 3.7. The ring will be of good quality and neat and will be set up in advance on a flat, level surface.
- 3.8. A neck clamp must be available to the inspector during pre-screening.
- 3.9. Assistance will be provided to the inspector during the pre-screening.
- 3.10. ALL animals that fail inspection due to structural faults during the auction’s pre-screening will automatically be rejected on the Brangus system as well and MAY NOT be offered as commercial at the auction.
- 3.11. If the animals are sold at an auction under the Auspices of the Society and have gone through the process (books, office, pre-screening), then they are considered registered animals for which the society receives 1% commission.
** Two (2) inspectors, appointed by the Society, will screen all animals offered for sale on the farm. The screeners will be paid by the Brangus Society. The seller along with the inspectors should do route planning to ensure cost efficiency.
- 3.12. The inspectors conducting pre-screening on the day of the auction have greater authority than a veterinarian’s report regarding scrotal and/or testicular abnormalities/faults. If a breeder wishes to appeal, they may request a veterinarian to come out at their own expense.
***Should a seller want to appeal a decision that the inspectors have made, the matter will be referred to the council member that is head of Training and Inspections for further discussion and investigation.
The seller can appeal at a cost of R 5000 to be paid in advance. If the seller's appeal succeeds, the appeal cost of R 5000 will be refunded to him/her, but if unsuccessful, the appeal cost is non-refundable.

4. CERTIFICATES & VACCINATIONS

- 4.1. All animals must be free from external parasites.
- 4.2. Auction animals must be tested for TB, BM, Trich, Vibrio, and Foot-and-Mouth Disease (FMD depending on legal requirements).
- 4.3. Fertility certificate, semen morphology test certificate as well as scrotal circumference, Trichomoniasis test results, Vibrio test results certified by a veterinarian, as prescribed by the Society (Adapted “Veterinary Certificate of Brangus Bull Breeding Soundness”, as prescribed by the Veterinary Council of SA)..
- 4.4. If used bulls are offered at the auction, the bulls must be tested for Trichomoniasis (3 sheath washes or scrapings with 2-week intervals).
Unused bulls offered at the auction must undergo 1 Trichomoniasis test. The results of the tests must be provided to the seller and the Society before the auction..
- 4.5. Pregnancy status of all female animals must be certified by a veterinarian before the auction.
- 4.6. Cows used for embryo flushing that do not meet rule 3 must provide an embryo flushing certificate from a veterinarian recorded on the Breedplan system before the auction.
- 4.7. Birth notifications for all cows with calves must be up to date so that all reproduction figures can be accurate.
- 4.8. The following documentation must be provided with the delivery of the animals: Pregnancy status of all female animals must be certified by a veterinarian before the auction as well as the Fertility certificate, semen morphology test certificate as well as scrotal circumference, Trichomonas test results, Vibrio test results certified by a veterinarian.
- 4.9. All documentation as mentioned in (points 4.2, 4.3, 4.4, 4.5, 4.6, and 4.7) must be provided to the Brangus office via email at least one week before the auction.
(This applies to all auctions held under the protection of Brangus SA).

5. STANDARD OF EXCELLENCE

- 5.1. Comply with the Standard of Excellence as on the day of the auction as well as 6 weeks before the auction when the pre-screening inspection is conducted on the farm (take note of 3.6, 3.7, 3.8 & 3.9).
- 5.2. A points system has been developed on how each animal will be scored. Auctions from 2025 onwards will adhere to the rule that all bulls must achieve at least the following points/ percentages:
 - Production sales, Group auctions, Total Dispersal sales: 60%
 - Club sales: 65%
 - National sale: 70%
- 5.3. All animals must be well-prepared and in good condition, but not over fat.

- 5.4. All animals presented at Brangus auctions will be inspected within 6 weeks before the auction. It is not a requirement for commercial female animals to be screened. Animals with visible wounds, injuries, or any suspicious marks or injuries that have not been examined by a veterinarian and the necessary certificate for the problem has not been issued will be summarily rejected. If a veterinary certificate can be provided for injuries/lesions, the auctioneer will / announce it.
- 5.5. Animals must not under any circumstances be under anesthesia.
- 5.6. Animals with unreadable or missing brand marks will be automatically rejected.
- 5.7. ALL ANIMALS (bulls, female animals and calves sold with cows) must bear a herd identification letter, year number, and follow number from the respective herd. This must be done through brand mark as determined by the constitution.
- 5.8. All animals must also meet the minimum breed requirements of the society. Note: If animals are rejected due to defects (such as short underjaw, crooked nose, etc.), the animal's registration will be immediately cancelled, and it may NOT be offered as a commercial animal.
- 5.9. The Brangus Society will not be held responsible for any problems encountered with the animals received by their new owner.
- 5.10. ** TO CLARIFY WHAT AN AUCTION UNDER THE SOCIETY'S PROTECTION ENTAILS, THE FOLLOWING:
- The society compiles the catalogue and ensures that the information and data, estimated breeding values, and other information on the auction catalogue are accurate representations of the respective animal's registration records as of the day of compiling the final catalogue (Two weeks before an auction).
 - Animals are phenotypically evaluated by the society's inspectors to ensure that the animals meet phenotypic standards. For the National auction, the judging is particularly stringent to ensure quality.
 - The society sets the requirements and rules that must be met before a bull is allowed at the auction. This includes, among other things, DNA testing to verify parentage, identifying double muscling, and ensuring the bull is free from undesirable genetic traits. Furthermore, it is required that a qualified veterinarian tests the bull for fertility and that the bull is free from reproductive diseases. Without the veterinarian's certificate, the bull will not be allowed at the auction. The certificate is handed over to buyers at the auction.
